PROFILE

Electronics and Communication Engineering student building practical AI assistants, workflow automations, and web apps. Interested in AI automation opportunities, internships, and focused freelance projects.

SELECTED PERSONAL PROJECTS

SheetPilot AI | Solo Meta AI Hackathon MVP

Built a React/TypeScript and FastAPI app for reviewed Excel analytics, Meta-powered mapping proposals, and Sales, Inventory, and Procurement tools. Human-approved proposals generate a separate, source-traced Excel workbook with an audit history. Python, SQLite, OpenPyXL.
Source: github.com/ZiadKhedr/SheetPilot-AI

Computer Store RAG Assistant | Personal demo

Built an n8n assistant with semantic catalog search, product recommendations using catalog pricing, and purchase-intent lead capture to Telegram. Used embeddings, vector search, and Ollama.

Real Estate Lead Qualification | Personal demo

Connected inquiry collection, response-based qualification, appointment scheduling, and Google Sheets lead records using n8n and calendar APIs.

Restaurant Ordering Assistant | Personal demo

Built n8n workflows for orders, cancellations, reservations, FAQs, and order-status updates.

AI Research Assistant | Personal team collaboration

My contribution: web search, scraping, tool routing, orchestration, and Gradio UI. Used Python and Ollama; a teammate built question generation, summarization, source comparison, and reports.
Source and contribution breakdown: github.com/ZiadKhedr/Ai-Research-Bot

SKILLS

Development: Python, FastAPI, React, TypeScript, SQLite, OpenPyXL, C++.
AI and automation: n8n, Make, LLM APIs, RAG, embeddings, OpenAI Agents SDK, Meta Model API, Ollama.
Integration and quality: REST APIs, webhooks, Telegram/WhatsApp APIs, Google Sheets, Airtable, Supabase, pytest, Playwright, Git, input validation and human approval flows.

INTERNSHIPS & TRAINING

League of Arab States - Sustainable Development Sector: Youth-focused digital initiatives, a technical feasibility study for an Arabic proficiency assessment platform, and participation in the Arab-Chinese Youth Forum on AI.

Savills - Low Current Systems Trainee: Access control, CCTV, structured cabling, fire alarm components, and networking fundamentals.

EDUCATION & LANGUAGES

Bachelor of Electronics & Communication Engineering
Arab Academy for Science, Technology & Maritime Transport | 2025-2029 | GPA 3.89
Digital Egypt Pioneers: AI Automation
Languages: Arabic - native | English - fluent
